

## To Our Horsemen...

Montana Downs at the State Fair welcomes you to our inaugural season. We appreciate and recognize your participation and dedication to the sport of racing.

In our first year of operations at Montana Downs, and in cooperation with Cascade County, you will notice several changes, including backstretch improvements, new facility signage, and enhancements to the front side, including reserved seating area in the Turf Club and Box Seats. With input from our horsemen and breeders, we adjusted our stakes schedule and added some new races. We also recently implemented "Montana Rewards," our player incentive program, and we encourage you to join to earn points and rewards, and keep informed of our events and specials.

We need your help to hold a successful race meet. Bring your friends and encourage others to come out to the races to try a day at the Downs. We've enabled a Training Season at the Downs for your horses. It's an investment we're making for a reason; it helps you get your horses to the facility and get them trained and schooled... you, however, need to get them race-ready. We're focused on getting full fields and having a safe, competitive meet.

Horsemen, registered and with valid credentials, get royal treatment. Call our Race Secretary for details and check our website for events, special deals, and discounts.

We're looking forward to having you with us and to building a great entertainment experience for our patrons. Together, we'll achieve that goal.
